

Lorna Ejemplar

Machine Learning Engineer
Taguig City, Philippines | lorna.ejemplar@example.com | 0900 000 0007

Summary

Machine learning engineer with five years of experience building and shipping language model applications. Works daily with LLMs, prompt engineering and evaluation of model output.

Experience

Machine Learning Engineer, Sample Talent Systems (2023 to 2026)

- Built an AI resume screening tool for a recruitment agency.
- Designed the prompts and the scoring rubric the screening model follows.
- Wrote evaluation sets to measure how often the model agreed with human reviewers.
- Used ChatGPT and other assistants to draft test cases and documentation.

Data Scientist, Example Analytics Lab (2021 to 2023)

- Trained text classification models in Python and PyTorch.
- Built dashboards in React to show model results to clients.

Skills

Python, PyTorch, LLMs, Prompt Engineering, ChatGPT, Retrieval Augmented Generation, SQL, React, Git

Education

Bachelor of Science in Statistics, Sample National University, 2020
