

Andrea Halimbawa

Senior Frontend Developer

Pasig City, Philippines | andrea.halimbawa@example.com | 0900 000 0001

Summary

Frontend developer with six years of professional experience building React applications in TypeScript. Has led the frontend of two production dashboards from first commit to release and mentors junior developers through code review.

Experience

Senior Frontend Developer, Sample Logistics Software (2022 to 2026)

- Built a customer dashboard in React and TypeScript used by about 300 client accounts.
- Moved the app to Next.js and cut the first page load from 4 seconds to 1.5 seconds.
- Built a shared component library styled with Tailwind CSS.
- Wrote unit and integration tests with Jest and React Testing Library.
- Consumed REST APIs and worked with backend developers on the API contracts.

Frontend Developer, Example Web Studio (2020 to 2022)

- Built and maintained React single page applications for five client projects.
- Introduced TypeScript to an existing JavaScript codebase.
- Reviewed pull requests in Git for a team of four.

Skills

React, TypeScript, Next.js, Tailwind CSS, JavaScript, HTML, CSS, Jest, React Testing Library, REST APIs, Git
